SKILLS

- Dart & Flutter
- Firebase
- Git & GitHub
- Figma
- JDBC
- Java & Collection framework
- HTML, CSS & Basic Javascript

PROJECTS

- **Dart & Flutter**
 - **Group chat app(Firebase)** – Used Firebase as backend, authentication is used and user can create groups for chatting. Also user can search and join/leave any group made in the app.
 - **Personal Expenses Tracker** – App where user can store records of his/her per day expenses and can view on which day he spent how much percent money of whole week.
 - **Meals App** – App in which different dishes and food items are added with ingredients and process which is useful for somebody who don't know cooking.
 - **Meeting app(VideoSdk)** – app made by using VideoSdk, user can create a meeting or join existing meeting using Meeting ID. I included mic toggle, camera toggle, leave meeting button.
 - **Authentication app(Firebase)** – used Firebase as backend, user can Create Account, Login, send Reset Password Link, Account Verification Link. This was made to use all authentication features.

➤ HTML & CSS

- **Family website** – Frontend design of our family website having 5 pages including Home page, Members page, Gallery page, Residence page, About me page where I used animations, Google maps for my location, and much more.
- **Forms** – I've made unique and beautiful application forms.

➤ HTML & CSS & Javascript

- **Calculator** – Users can calculate using operators like +, -, *, /, % .

➤ Java

- **Rock, Paper, Scissors game** – user can play this game with computer by entering 0 for stone, 1 for paper, 2 for scissor.
- **Guess the number** - In this, computer will guess a random no. And you've to guess it by entering the expected number, Also, computer will tell you in how many attempts you guessed it right.
