EDUCATION

- RATM, Mathura, U.P
  Bachelor of Science (CS)
  2019 - 2022

SKILL

TECHNICAL

- HTML
- CSS
- Javascript
- Reactjs
- Nextjs
- Redux
- Redux-toolkit,
- Typescript
- Tailwind
- Material UI
- Bootstrap
- Java
- Flutter
- Dart
- Framer motion
- SASS

TOOLS AND OTHER

- VS Code
- Cursor
- Git & GitHub
- Figma
- Data Structures
- Algorithms

SOFT SKILLS

- Problem-Solving
- Continuous Learning
- Attention to Detail
- Resilience

ACHIEVEMENTS

- Gained a **Frontend development certificate** from **Simplilearn** after completing course in which I learnt HTML, CSS, Javascript, Reactjs.
- Solved **300+** DSA questions on **Coding Ninjas**, **Leetcode** and **Geeks For Geeks**.

PROFILE

Passionate Software Developer experienced in React ecosystem, API integrations, and performance optimization. Committed to transforming design concepts into interactive, responsive interfaces that enhance usability, maintain visual consistency, and improve overall user satisfaction.

WORK EXPERIENCE

Software Engineer
Turning Cloud Solutions (Supplymint) | Gurugram, Haryana
June 2024 – Present

- Created **Modular**, **Reusable Components** to maintain consistency and streamline development across the portal.
- Individually handled the **redesign** of the **company website**, introducing sleek **animations** using **Framer motion** for a refined user experience.
- Migrated the entire styling system from **SASS** to **Tailwind CSS**, improving code maintainability and design consistency.
- Handled both functionality and styling, implementing features using React and CSS/Tailwind.

Jr Reactjs developer
Zysk technologies | Bangalore, Karnataka
Nov 2023 – May 2024

- Developed and maintained scalable front-end solutions using **React.js**, **Next.js**, **Typescript**, **Material UI**, and **Tailwind CSS**
- Built and optimized frontends for **EdTech**, **Photography**, and **Real estate platforms**
- Actively participated in **Learning and Development sessions**, fostering continuous growth by exchanging knowledge and insights with team members.

Software Trainee Engineer
Tapasvi Info Solutions | Hathras, UP
Nov 2022 – April 2023

- Integrated **Real-time chat** using Firebase in **Flutter apps** for enhanced user interaction
- Ensured smooth data synchronization and real-time updates with Firebase in Flutter projects.

PROJECTS

Fullstack chat app 🔗

- Developed a **Real-time chat platform** enabling instant messaging through Socket.io for seamless, bidirectional communication.
- Built the frontend using React, Tailwind CSS, and DaisyUI, ensuring a clean, responsive, and modern user interface.
- Implemented secure **user authentication** and message persistence using Node.js, Express, and MongoDB
- Ensured scalability and maintainability through modular architecture and efficient state management practices

Draw Magic 🔗

- Developed Draw Magic, a responsive drawing application built with **React** and **HTML Canvas API** for smooth, real-time sketching.
- Implemented custom drawing tools including **pen**, **eraser**, and adjustable **brush thickness** for flexible creativity.
- Added **light and dark mode** support to enhance usability and provide a personalized user experience.
- Built a **screenshot capture** and canvas reset feature, enabling users to save or restart their creations instantly.
